

Flanderwell Primary School Special Educational Needs / Inclusion Policy

This policy is written in a time of transition as the new SEND Code of Practice (2014) is being implemented nationally.

This policy reflects the new statutory guidance issued through the National Curriculum (2014). All policies have been written to ensure that these points of study are covered in this policy, and expanded on where necessary to develop the school's own, individual curriculum. This curriculum is based heavily on thoughtful first hand experiences, creative endeavours with these experiences and an inherent connection to the children of Flanderwell School, their needs and backgrounds. Additionally, it has been designed and patterned to ensure that children maximise their progress in school and are given the opportunities to widen their learning and aim for even higher levels of study. It has been carefully designed to meet the needs of the school's values, vision and ethos with the new curriculum in mind.

Introduction

Flanderwell School is committed to providing equal opportunities for all pupils; we believe children are entitled to a broad, balanced and differentiated curriculum based upon the new National Curriculum 2014. We aim to provide a stimulating, supportive environment where all children are motivated to learn. Whenever possible, work is based on first-hand experience, using a multi-sensory approach. Work is differentiated according to the needs of the child, or groups of children. We aim to promote confidence, self-esteem and independence.

At Flanderwell we have adopted the SEN Code of Practice 2014. This is a whole school approach, ensuring continuity and progression as the child moves through school. The development of learning support is seen as a service for the whole school, so that helping children with learning difficulties is an integral part of teaching and learning. The needs of all of our pupils are met through carefully planned lessons delivered by outstanding teachers who understand the needs of the children in their class.

We consider parents to be our partners in the education of their child and recognise that their help and support is of vital importance to aid their child's learning. When a child is initially identified as having special educational needs, parental permission is sought for the child to be placed on the SEND Register. Parents are then kept fully informed of their child's progress through regular contact with school (i.e. a copy of the Individual Education Plan (IEP) is sent home, parents are invited to IEP review meetings etc).

We recognise the importance of liaison with other outside agencies (e.g. Learning Support Service, Educational Psychology Service, Speech and Language Therapy Service, Autism Communication Team etc) as they offer much help and advice in securing the best possible provision for our children with SEND.

Aims

- To create an inclusive environment which meets the needs of each child.
- To ensure that the special educational needs of children are identified, assessed and provided for.
- To identify the roles and responsibilities of staff/other adults in providing for children with Special Educational Needs.
- To enable all children to have full and equal access to all elements of the school curriculum and all other aspects of school life.

Objectives

- To identify children with SEND as early as possible, in order to remove/minimise barriers to learning and prevent the development of more significant needs.
- To ensure that the child's needs are assessed and information is gathered, so that appropriate individual education plans (IEPs) can be developed (ensuring that targets are achievable and measurable).
- To ensure that progress is monitored, records are kept and that reviews take place, with recommendations for future provision.
- To identify the roles and responsibilities of the Special Educational Needs and Disabilities Co-ordinator (SENDCO), headteacher, class teacher, parents, LSS, other outside agencies, schools and the Governing Body in

order to ensure effective liaison and give the best possible provision for the child.

- To fully include children with SEND in class, providing appropriate resources and support.
- To ensure that our children have a voice in this process.

Identification of Children with Special Educational Needs

Children have Special Educational Needs if they have a difficulty that calls for special educational provision to be made for them.

Children have a learning difficulty if they:

- have a significantly greater difficulty in learning than the majority of children the same age; or
- have a disability which prevents or hinders them from making use of educational facilities provided for children of the same age in schools, within the area of the LA.

The Code of Practice identifies four areas of SEND:

- communication and interaction
- cognition and learning
- behaviour, emotional and social development
- sensory and/or physical

Implementation of the Code of Practice

Successful implementation relies upon:

- early identification
- best practice when devising interventions
- taking into account the views of the child
- effective partnership with parents
- regular evaluation of interventions to assess their impact
- close co-operation between all agencies concerned

There is a graduated approach in the response made to children's special educational needs:

1. Informal Action (Formerly SA / Early Years Action (EYA))
2. Formal Action (Formerly SA+ / Early Years Action Plus (EYA+))
3. EHCP (Education and Health Care Plan) Formerly a statement.

1. Informal Action

Using evidence of observation, assessment and knowledge of a pupil, the class teacher may feel that the strategies they are currently using with the child are not resulting in the child learning effectively. The teacher will consult with the SENDCO/LSS teacher for advice. The pupil may need extra support over and above that which is usually available in class. This is "Informal Action".

The teacher and SENDCO, in consultation with the LSS teacher and parents, plan support/appropriate interventions for the child.

2. Formal Action

It is necessary to progress to Formal Action when, despite receiving an individualised programme of support under Informal Action, the child:

- continues to make little or no progress in specific areas over long periods
- continues working at National Curriculum levels substantially below that expected of children of a similar age
- continues to have difficulty in developing skills in literacy and numeracy
- has an emotional or behavioural difficulty, which substantially and regularly interferes with the child's own learning or that of others
- has sensory or physical needs which require additional specialist equipment/support
- has ongoing communication or interaction difficulties that impede the development of social relationships and cause substantial barriers to learning

External support services (Inclusion Services) will provide advice, support or carry out further assessments. The new IEP will set out additional or different strategies for supporting the child's progress. It is always

necessary to seek parental consent before referrals to external support services are made.

EHCP (Education and Health Care Plan)

The majority of children and young people with SEN or disabilities will have their needs met within school. Some children and young people may require an EHCP needs assessment in order for the local authority to decide whether it is necessary for it to make provision in accordance with an EHCP plan.

The purpose of an EHCP is to make special educational provision to meet the special educational needs of the child or young person, to secure the best possible outcomes for them across education, health and social care and, as they get older, prepare them for adulthood. To achieve this, local authorities use the information from the assessment to:

- establish and record the views, interests and aspirations of the parents and child or young person
- provide a full description of the child or young person's special educational needs and any health and social care needs
- establish outcomes across education, health and social care based on the child or young person's needs and aspirations
- specify the provision required and how education, health and care services will work together to meet the child or young person's needs and support the achievement of the agreed outcomes

If a child had a statement of special educational needs this will be replaced with an EHCP. The EHCP will be phased in as the child reaches the end of a Key Stage. It is a plan put together by the LA when a range of information has been gathered and an assessment undertaken. The LA will work with the family and are given a personal budget to spend as they see fit.

Individual Education Plans (IEPs)

IEPs record that which is additional to or different from the differentiated curriculum plan for all children. The IEP focuses on three targets to match the child's needs. These are shared with the child and the parents.

The IEP should include:

- The short term targets set for the child
- The teaching strategies to be used
- The provision to be put in place
- When the plan is to be reviewed
- Success criteria
- Outcomes (when reviewed)

IEPs will normally be reviewed three times per year. Parent's views on the child's progress are sought as part of the review. The child (according to age and understanding) is involved in reviewing and setting targets, as are the parents.

Inclusion Services provide an important link between the schools

Liaison meetings between key members of staff and appropriate external agencies at key stage transition are organised at a mutually agreeable time in order to maintain effective provision.

Roles and Responsibilities

The Role of the SENCO

Key responsibilities include:-

- Overseeing the day-to-day operation of the school's SEND policy
- Co-ordinating provision for children with special educational needs liaising with and advising fellow teachers
- Overseeing the records of all children with special educational needs contributing to the in-service training of staff
- Liaising with external agencies including the LA's support and psychology services, health and social services and voluntary bodies
- Liaising with parents of children with special educational needs
- Managing teaching assistants
- Updating the 'local SEND offer' annually, which outlines various levels of support for SEND children

These key areas are the responsibility of the SENDCO, Mrs Tina Otter, in consultation with the Head Teacher. There will inevitably and necessarily be some overlap of roles.

The SENDCO will also maintain the adequate provision of resources and attend courses and cluster meetings to keep informed of current and future developments.

The Role of the Class Teacher

The class teacher has the overall responsibility for the education of all children in his or her class, including those with barriers to learning. It is the class teacher's responsibility to identify needs and to inform the SENDCO. The class teacher carries out assessments, consults with parents and seeks advice from the co-ordinator and LSS when appropriate. It is the responsibility of the class teacher to write the IEP with help from the co-ordinator and/or LSS. The class teacher will work closely with the child in the classroom, organising teaching assistants and resources to provide support for the child. The class teacher will monitor progress and review future provision, in consultation with the SENDCO, LSS and parents. The class teacher will ensure that any child with barriers to learning is accessing quality first teaching within the classroom.

Classroom Organisation and Management

We aim to provide a supportive, stimulating environment in all our classrooms. All children are encouraged to develop confidence and independence. Teachers use a variety of teaching strategies appropriate to learning styles. They organise groups/individual work to ensure that learning needs are appropriately met. They set targets which are attainable yet challenging to enable all pupils to make the best possible progress.

Access to the Curriculum

All children will be offered a broad, balanced and differentiated curriculum, using the guidelines from the new National Curriculum 2014. Access to the curriculum will be ensured by the following:-

- Curriculum developments will be planned to include all children
- Learning objectives will be broken down into smaller steps and time will be given for children to 'over learn', promoting confidence and self-esteem
- Staff will use the child's strengths and needs to work out adaptations to enable children to participate in all school activities

- 'Withdrawal' may be used for short periods of time so that children receive extra help, but staff ensure that the children still receive their entitlement to a broad, balanced curriculum
- There is close liaison with the LSS and other agencies for advice on teaching strategies, appropriate intervention programmes, resources and technical equipment to allow SEN children to access the curriculum
-

The Duties of Governing Bodies

The governing bodies must:-

- Decide with the headteacher the school's general policy and approach to SEND for those children with and without statements/ EHCP plans
- Set up appropriate staffing and funding arrangements and oversee the school's work – appoint a governor with specific responsibility for SEND
- Do its best to ensure that the necessary provision is made for any pupil who has special educational needs
- Ensure that, when the headteacher has been informed by the LA that a pupil has special educational needs, these needs are made known to all who are likely to teach him or her
- Ensure that teachers in the school are aware of the importance of identifying and providing for those pupils who have special educational needs
- Consult with the LA and the governing bodies of other schools, when it seems to them necessary or desirable in the interests of co-ordinated special educational provision in the area as a whole
- Report annually to parents on the school's policy for pupils with special educational needs
- Ensure that the pupil joins in the activities of the school, together with pupils who do not have special educational needs, so far that is reasonable and practical.
- Have regard to the Code of Practice when carrying out their duties towards all pupils with special educational needs

Working in Partnership with Parents

At Flanderwell we value parent partnership and involvement. We work closely to ensure all our parents feel welcome in school and particularly we endeavour to build good relationships with the parents of children identified as having SEND. The school ensures that they are:-

- Encouraged to take an active and valued part of their children's education
- Enabled to make their views known about how their children are educated
- Informed about how they can access information and support regarding SEND provision, and also information about the local Parent Partnership Service

Pupil Participation

Children will always be involved at an appropriate level, according to age and understanding. They will be involved in talking about their progress, celebrating success and setting new targets.

Children will be involved from an early stage in making decisions, choices and expressing their opinions and views. They will be encouraged to explain reasons for their preferences.

Assessment, Recording and Reporting

The class teacher is responsible for gathering information about the child (e.g. National Curriculum attainments, records of achievement, observations and parental information). Records about the child, IEP reviews at each stage etc are kept by the class teacher, but also centrally by the SENDCO. The class teacher monitors the child's progress and uses observations and assessments as an aid to planning the next steps in learning. Reviews are carried out, usually termly, to decide on future action in consultation with parents, the SENDCO and LSS etc.

The child's progress is reported verbally to parents at regular intervals and in writing in the annual report. Appropriate records and information are passed on to the next teacher, school and Key Stage to ensure progression and continuity in the provision for the child.

Admissions

Whenever appropriate, taking into account parental wishes, we believe children with SEND should be educated in mainstream schools. This

school will not seek separate special schooling on the grounds of disability or learning difficulties against the parents' wishes and we will endeavour to provide the best possible education and support them in school.

Resources

The school has developed a range of resources for SEND/Inclusion. Some of the resources are games, to promote enjoyment and motivation whilst children are learning, and these are used as reinforcement of areas taught and planned for in the child's IEP. Specialist equipment for individual needs would be purchased should the need arise.

Intervention Programmes

We have also adopted a variety of intervention programmes. Teaching Assistants who have received appropriate training are deployed to work with individuals or groups of children for periods of time.

Staff

This school operates a whole school approach to Inclusion and practice is consistent throughout the school. All staff, including teaching assistants are given opportunities for INSET. Advice is readily available from Sarah Grant, the school's LSS teacher and Rubia Razwan, the school's Educational Psychologist. Inclusion is considered when new curriculum initiatives are introduced and all staff are aware of the importance of differentiation in their planning.

Reviewed : Annually at Autumn term Governing Body meeting.
