

Prior Learning

- Understand some important processes and changes in the natural world around them, including daily weather patterns.
- Talk about everyday life for example, what do you see on your journey to school?
- Look at picture maps and recognise basic symbols.

Geography - Weather and Seasons

Year Group - 1

Vocabulary

rain, season, snow, sunshine, temperature, wind, climate, weather, spring, summer, autumn, winter, cloud, rain gauge, weather forecast, freezing, frosty, ground, misty, month, temperature, thunderstorm, warm, cold

Substantive Knowledge (Facts)

- In the UK, there are four different seasons. Each season has different weather types.
- Winter is cold, wet and windy. It snows in some areas and gets dark early.
- Spring brings warmer weather. Flowers start to grow and baby lambs are born.
- In summer, the weather becomes hotter; there is often less rain, but there may be thunderstorms.
- The weather starts to get colder in autumn. Leaves change colour and fall off the trees.
- The months of the year: January, February, March, April, May, June, July, August, September, October, November, December.

Disciplinary Knowledge (Skills)

- Create a simple weather chart
- Order the months of the year
- Order the seasons
- Organise the months of the year into seasons
- Compare similarities and differences between seasons
- Collect seasonal evidence and use this to explain which season we are in currently
- Identify types of clothing to wear in different types of weather
- Record a weather diary, including measuring temperature and rain fall
- Explain how some jobs are affected by the weather
